Subject: RE: proposed agenda for the 10/30/08 public meeting

Kristine - I generally agree with your take, with some tweaking as shown below. Note that we don't have a "public health expert" per se, just the risk assessor who came up with the air monitoring and tracking system that we use; he won't be able to speak to CADs. Also, EPA has to be careful and make clear that CADs are just one of several alternatives that we will be considering (along with upper harbor CDFs and offsite T&D).

Thanks - Dave

Welcome and Introductions

City of New Bedford (Mayor and me)

Town of Fairhaven (Bill Roth or who he sees fit, if he wants)

EPA

We outline the purpose of the meeting

Superfund Progress to Date

EPA: No discussion of CADs, report on EPA Clean-up (speak to the pipe issue)

US Army Core (if you want???)

Public Health Expert/Toxicologist/risk assessor: Report on

air monitoring system monitoring; no adverse health impacts incurred  
Navigational Dredging Project  
HDC and Town of Fairhaven: Speak to area dredging and  
economic benefit to maritime industries  
DEP: Speak to environmental benefit of dredging  
CAD Cell Technology  
APEX: What is a Cad, a simple overview of the technology,  
SHOW CADS IN NB HARBOR  
Public Health Expert: It is safe  
EPA: We are considering it for the superfund clean-up,  
PRELIMINARY COST AND SCHEDULE SAVINGS IF CADS USED

Subject: proposed agenda for the 10/30/08 public meeting

Hi Kristin - with the 10/30 meeting now three weeks away we wanted to propose the following agenda. Let me know if you have any comments or suggesions. We can also discuss more at next Thursday's SER meeting. For instance, although Q&A is listed at the end, we would likely take questions during the various presentations like last time.

Thanks - Dave

1. Intro (HDC/EPA - describe joint aspect of the meeting)
2. Superfund dredging progress to date (EPA) - 20 min
3. Navigational dredging progress to date (HDC/Apex) - 20-25 min
- include primer on CAD cells
4. Update on EPA's evaluation of alternative approaches for the Superfund harbor cleanup (EPA) - 20 min
5. Time frame for future Superfund decision making/public comment
6. Q&A
